Mr. Raghavendrachari after Mr. Ramaraja Iyer

Vcd 20/8

About five years ago, Govt. decided to have a hall for holding the R.A. meetings and plans and estimates of such a building at a cost of Rs. 150,000 were approved.

Subsequently, however, it was decided to have a building which could be utilized not only for holding meetings of the R.A but also for University Convocations, University Offices &c. Plans and designs for this building have been prepared and its estimated to cost Rs. 400,000 [As however, the estimates were made some time ago they may require a revision.]

1. In this file, the only point for the Reforms Section is that relating to the accommodation required for the Representative Assembly.

2. A note kindly furnished by the P.W.Secretariat is put up for perusal. It will be seen therefrom that in the combined Representative Assembly Hall and Senate House, the accomodation provided is as below:-

(1) Central Hall with dais, seats (800) for Representative Assembly members, officers, and press representatives and balcony and box arrangements for visitors (600)

(2) Two refreshment rooms.

(3) One committee room.

(4) One Library.

(5) Six rooms for officers and offices:-

1. Dewan.
1. Members of Council
1. Officers retiring room.
1. Secretary.
1. Office Staff.
1. Spare room (to be reserved for distinguished guests or ladies should there be any)

(6) Two rooms for members of the Assembly.

3. The accommodation is a vast improvement on the present accommodation and appears to be adequate.

4. As regards the Hall itself, it will be too large for the Representative Assembly meeting as the number of representatives will be about 250 only. This, however, cannot be helped as the Hall will be used for convocation purposes also. The equipment of the Hall should therefore be

with plans

The Vice-Chancellor is in entire agreement with the proposal to build a common public hall to be called "The Krishnarajendra Hall" at Mysore so as to serve the purposes both of the University and of the Representative Assembly. It has to be made clear, however, that the Hall should be available for the Convocations, the Senate Meetings, Extension Lectures and such other Academical Conferences or gatherings as are deemed to be of sufficient importance by the University. He further desires that a few of the big rooms should always be placed at the sole disposal of the University for storing its furniture and keeping some of the records, etc., as the accommodation in the University Office, which is growing every year, is insufficient. And it is not possible to locate the University Office in any of the rooms of the Hall, as University work is generally of a confidential nature. The Plans are herewith returned.

Subject.-

Construction of a hall to meet the requirements of the University and the Representative Assembly.

Extract from the Proceedings of the Council is put up.

Forwarded, with compliments, to the Financial Secretary to Government, under paragraph 9 * of the Government Order No. G. 17572-8—G. M. 676-17-1, dated 22nd June 1918.

By Order,

Chief Secretary to Government.

*9. (a) If the views expressed by the Financial Secretary in any case, whether original or un-officially referred, are not accepted by the Member of Government in charge, or by the Dewan and Members of Council, as the case may be, the file containing the discussions shall be sent to the Financial Secretary a second time, in order to enable him, in cases in which he considers that the orders proposed to be issued are opposed to financial rules of Government or to recognised financial principles or for other reasons of a financial nature, are open to objection, to record a respectful representation to that effect, which will be placed by the Dewan before His Highness the Maharaja for consideration.

(b) All cases sent to the Financial Secretary under this rule should be treated as immediate and returned to the Department concerned within three days of receipt.

I do not know what is exactly meant by approving of the scheme before the question of finding the money for financing it is settled. The sanction to a project and the supply of funds for it are two sides of the same problem and they have to be simultaneously settled. The divorcing of the one from the other has been the cause of all the trouble from which our finances have suffered in the past few years.

The financial commitments undertaken by the Public Works Department for some years past have not been based upon any definite procedure. The relation which sanctions to estimates for works must bear to the annual resources on which the Department can confidently count has been overlooked and the result is a large number of incomplete works and the indefinite prolongation of their construction owing to the inadequate or no appropriations allowed for them. The execution of works under such circumstances cannot but be uneconomical and sanctions which cannot be carried out within a reasonable time cannot but be unsatisfactory either administratively or financially.

We have enough of commitments on account of incomplete works ~~now~~ in the Public Works Department al-

Serial No.

already and the addition of another large work to the ~~Departmentmenal~~ departmental commitments can not, for the present, be supported by the Finance Department. It is true that the Reforms necessitate a readjustment of the existing accommodation, but I think we have to adapt, as a temporary arrangement, the existing accommodation to suit the new requirements. ~~It is not a question of~~ The position is not one of there being no accommodation at all either for the Representative Assembly or for the University. The question is only one of providing the accommodation best suited for both these Institutions. This demand, in view of its nature, has, I think, to wait until we can afford the money to erect a building of the ~~xxx~~ kind required.

In holding the view I have expressed above, I am influenced by the consideration that no factor should be permitted to work whose operation is likely to go against the scheme of financial rehabilitation which is the central object to be kept in view. The undertaking of works of the magnitude now under consideration is bound to dislocate the plan of putting our financial house in order and I must, therefore, request that whatever temporary arrangement is feasible may be made for meeting the requirements of the Representative Assembly for a period of, say, four or five years and that the question of erecting

G. R. S. III-2]
